## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Liberman et al (5,670,914). Liberman et al. discloses a vapor cell comprising : a thermoelectric and heat sink clamped together (see figure 3) and furthermore a vapor chamber connected to heat sink.

### ***Allowable Subject Matter***

**Claims 13-15 & 17-28 are allowed over the prior art of record.**

Claims 2-12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Response to Arguments***

Applicant's arguments with respect to claims 1-15 & 17-28 are have been considered but are moot in view of the new ground(s) of rejection.
